

FAMILY WEEK, 2022

Department of Physics

St. Xavier's College

Introduction:

The Physics Department, St. Xavier's College, Maitighar, has decided to dedicate five college days (**11th September, 2022 - 16th September, 2022**) to foster the bonds of the students in the Physics Department by organizing an event of various activities to suit all students and their abilities: **The Family Week**.

Details:

The event shall incorporate both physical and mental sports through basketball, table tennis, and badminton competitions and chess competition as well as physics hunt. It also aims to encourage other creative skills that students possess with a mini art exhibition, a debate competition and music and dance competition and so on among students in the department.

Objectives:

- To get to know one another from various years.
- To improve the relationship among students of various years.
- To foster bonds among students in the same class.
- To demonstrate the skills and talent of various students.
- To improve teamwork and collaboration skills.
